Pre & Post Hospitalization

What are Pre-Hospitalization & Post-Hospitalization Expenses?

When one falls sick, one usually consult a family physician and gets relevant investigations done. On the advice of the physician, one gets hospitalized for further management of the disease if required. Such medical expenses incurred before hospitalization are called Pre-Hospitalization expenses.

During hospitalization, a major part of the treatment is complete but some part of the treatment extends beyond the hospitalization. It may involve follow-up visits to the doctor, medicines to be taken or further investigations to be done. Such medical expenses are called Post-Hospitalization expenses.There is provision to claim these expenses through your health insurance policy.

These expenses are payable for a policy-defined period (30 days prior to hospitalization). Both pre-hospitalization and post-hospitalization expenses 60 days after discharged from hospitalization) can be claimed only after the settlement of the main hospitalization claim.
